

# Sleep

## Chester French

Turn day into the night  
Face to wash, teeth to floss  
More coffee down the drain  
Concerta in my brain  
But got nothing yet to show  
I had to read the facts  
Back to back  
Book to book  
Can't sleep until I'm done  
But at that time the sun  
Will come up  
And keep my high  
You're never ever gonna find me  
I'm worn out, gon' run away  
I need to get some sleep  
I'm dying to leave the work behind me  
Get inspired, and find my way  
I need to get some...  
Turn night into the day  
Rain to snow  
Studio  
We're cold but we're alive  
Another month inside  
But got nothing yet to show  
That's just the way it goes  
Some do fine  
Some do lines  
And some just stay awake  
No time to take a break  
Or escape into a dream  
(Chorus)  
It's comin around  
It's comin around  
It's comin around  
Round  
It's comin around  
It's comin around  
It's comin around  
Round
