

LONER

JUMEX

[Intro]

Who would've thought in my loneliness

SVS[Chorus]

You could be mad, cause baby I'm a loner yeah

You could be sad, baby I'm a loner yeah

You could be mad, cause baby I'm a loner yeah

You could be sad, (skrt) cause baby I'm a loner yeah

You could be mad, cause baby I'm a loner yeah

[Verse 1]

We far fast, we smoke gas

Staying with the fear trying to keep it on the tracks

Cop come and dash

Back on relapse

Try to survive the tonight where the fuck I am

Two bars in my mouth looking like a slushy

You always wanna chill but, you love me for my money

I don't really know her but, she really loves me

Baby I'm a stoner, you ain't getting nothing[Chorus]

You could be mad, cause baby I'm a loner yeah

You could be sad, baby I'm a loner yeah

You could be sad, cause baby I'm a loner yeah

You could be mad, cause baby I'm a loner yeah

[Verse 2]

Papa Papa

You're not gonna talk 'bout why you're so down

I can hear no sound

Lynch me, burn me

Lynch me, burn me yeah

I can never find her

She's always hiding

Never met the girl I love, so blinded

Yeah, yeah you're so blinded I don't want you, you don't want me

Falling for you, I'm bleeding

You know what to do, this isn't guaranteed

I walk in a pretty hell for you yeah[Chorus]

You could be mad, cause baby I'm a loner yeah

You could be sad, baby I'm a loner yeah

You could be sad, (skrt) cause baby I'm a loner yeah

You could be mad, cause baby I'm a loner yeah[Bridge]

On spending on the drugs, the money well spent

I struggle on the problems when it's all in my head

Bunny need the drugs, the money well spent

I struggle on the problems when it's all in my head[Outro Chorus]
You could be mad cause baby I'm a loner yeah
You could be sad, baby I'm a loner
