

# Top of the World

Hoodie Allen

[Verse 1:]

Bad girls, all in the mad world

Gave 'em the mace flow, Don't know they dad girls

Tell em I got a place they can visit that's near the

beach

You never settle for nothing, but money is what you

preach

So peace, to the old life

Got the same old car but now a days I don't drive

Kicking it with people that do wrong their whole life

And yeah I'm still up on that high horse, old spice

And they don't want to mess around

They just want to get in for free

Don't we all man? It's feelin fantastic

Get up on my level where you at bitch?

[Hook:]

Oh, I'm on top of the world

I'm on top of the world

We making money right now

Yeah, yeah, we making money right now

Oh, I'm on top of the world

I'm on top of the world

We making money right now

Yeah, yeah, so let me give it all out

[Verse 2:]

Can you make your booty bounce like hers?

Ah, ah, is everything I ask absurd?

If I dig a little deeper, can I get below the surface

I paid all my attention baby, don't that mean I earned  
this?

I went from working at google, to watching my google  
alerts

Now, I got a buzz bigger than Google Earth

All my fans are virgins, let me get a word in

I ask him who they favorite is, they screaming "You the  
first"

I like to hear that, hear that

They been telling my we're back, we're back

In business, but now a days who isn't

Treat it like a holiday every time you visit

Don't be dumb and fall in love with an actress

She ask what room Ewing, Patrick

And now I'm always on top, like a fasten

Get up on my level, where you at bitch?

[Hook]

[Bridge:]

I take all my days, And rewind them back

Throw it all away, And let the real shit last

I take all my days, And rewind them back

Throw it all away, And let the real shit last

[Verse 3:]

Standing at the top of the world yelling Geronimo

From the top of my lungs, made it on to the honor roll

Your boy made it, the education was worth it

I know you paying for dinner, but let me pay for desert

It's the most that I can do, and the least that you

deserve

I can't afford a lot, but I can give you my word

Word, it's real talk, but they be saying we average

Get up on my level, where you at bitch?

[Hook]
