

Lost My Mind

Shwayze

With my raincoat on It's alright baby hold my hand
I ain't tryin to be your man
Let's take it slow
Relax a little
Make it so it's naturable
As a matter of fact
Let's take it black
To the very first day I had your back
We shared a cab
Shared a laugh
Shared a glass
And I kissed yo ass
Kissed yo lips after class
We both had history after math
Passin' notes, teachers askin' for 'em
I read 'em out loud to the class
Like a poem or a rap
Say it liked I mean it
When my big toe tap
Hand them back and forth like that
If you like what your hearin'
You can meet me out back (out back)
With my raincoat on
In the heart of the sun
With my raincoat on
In the heart of the city I la-la-lost my mind
I la-la-lost my lady
I la-la-lost my mind
But I la-la-love you baby It crossed my mind
But I lost my mind
I guess I should check back in sometime
Sometimes a perfect litte word rhymes
And sometimes it don't
Fine, rewind
Repeat it three times if you mean it
I wanna crib by the beach, believe it
So baby doll, I'm leavin'
Baby doll, I'm leavin'
Duffle bag filled with clothes
Notebook filled with flows
Phonebook filled with hoes
My dope hook gonna get me close

My hope is what drives me towards this future
Like a midnight double feature
So I high that I blow those tweeters
In the speakers
With my raincoat on
In the heart of the sun
With my raincoat on
In the heart of the city I la-la-lost my mind (She' out the door)
I la-la-lost my lady (She' out the door)
I la-la-lost my mind (She' out the door)
But I la-la-love you baby (She' out the door) Woke up at about noon
Just thought that I had to be in Compton soon
To get my hair lined up
And a new tattoo
The blacker the berry
The sweeter the juice
The mac of the year
Shwayzes a fool
Take you to school
And pick you up too
Maybe I'd do anything for you
Maybe I'd do anything for you
Maybe I'd do anything for you
Maybe I'd do anything for you Would you do it for me? I la-la-lost my mind (She' out the door)
I la-la-lost my lady (She' out the door)
I la-la-lost my mind (She' out the door)
But I la-la-love you baby (She' out the door) I la-la-lost my mind (Yo man, you know life's good
right now)
I la-la-lost my lady (I'm next to the beach, my feet in the sand)
I la-la-lost my mind (And you gone and I'm happy, whatever baby)
But I la-la-love you baby I la-la-lost my mind
I la-la-lost my lady
I la-la-lost my mind
But I la-la-love you baby
