

# Focus

## Joe Budden

Salutation, Joe Budden here  
I be your host for this evening, you know  
Doug B, with the banger, webb, nitty, dollar  
Shouts is stupid, let that bass knock Still on your block with it  
Street ball and the black top with it  
Ballin' war to the crackpot, crackpot with it  
Gat cop with it, white-T black socks fitted  
Pop the trunk let the bass knock with it  
Like, no team could beat us  
We pump diesel, I ain't talkin' 'bout jeans or sneakers  
Raid, man we gettin' it harder  
All day dog I live in the Carter, take your time with it  
Jump off that nigga  
Nona seen me with at least two birds like Jack Tripper  
Jerse, true that I'm a rep, new Jag on the set, durag on my neck  
Breathe, and then hide your bait  
'Cause all my heat stay dirty like a project vent  
Whoa, on the lowdown bring the hook it's about to go down, ladies If you focused man would  
you please rock with it  
If you overstand you know  
Get focused man 'cause whether hoopty or Rover man  
We doin' us  
If you focused man would you please rock with it  
If you overstand you know  
Sing the track down pause  
Stop playin' man bring it back down  
Pause, man I tell 'em whatever  
Say I got a little X, they think I know the director  
Ma, that's just how the game go  
Never burberry but you could splurge with rainbow  
Trick, I know how a groupie do  
Yeah I tell 'em I'm dead broke, don't let the jewelry fool you  
Ho! Sing the track now pause, stop playin' man bring it back down  
All this paper is the only reason why Shorty wanna call me later  
No! I won't see ya tomorrow How we goin' out to eat? I thought you ain't swallow  
Think 'cause I rock jeans and sling rocks  
That I'm a wife beater I don't mean tank top  
You think I'm a start actin' new, I got enough beef  
Not to start slappin' you but back to it  
No, funds comin' over tonight  
She fell for the yank unfitted over my eyes  
'Cause Joe, get up in the choch and slide

Taxi never rove or a five that's how I do, thugs  
 If you focused man would you please rock with it  
 If you overstand you know  
 Get focused man 'cause whether hoopty or Rover man  
 We doin' us  
 If you focused man would you please rock with it  
 If you overstand you know  
 Sing the track down pause  
 Stop playin' man bring it back down  
 Crates, I keep the pump out  
 Park the V jump out when I need to dump out  
 Cain, y'all don't know a thing  
 Jump off make it snow or spring but anyway  
 Clubs, if y'all don't yet  
 I skips the pat down, cashier, and coat check  
 Sing the track now pause, stop playin' man bring it back down  
 Fridays I might stay home  
 Might run up in a lounge or I might play on  
 Saturdays P. Caliwood  
 With his thugs in the whip they follow me from the hood  
 Sunday I'm gettin' right with a broad  
 That I probably met the night before, y'all know my style  
 Wait, y'all know that's right  
 Low cut like so what with the throw back Nikes  
 I'm good with somebody's bill  
 Tell 'em to holla at somebody real ain't nothin' changed  
 Let's, go, sing the track now pause  
 Stop playin' man bring it back down  
 Jump off  
 Doug B, Fame, Devin, on top  
 Webb, nitty
