

Where You Been (feat. Kevin Gates)

Wash

Where you been
Where you been
Baby please tell me where you been (hey girl) I look for you whole my life
Baby where you been (hey girl)
I came here with my home boys
Tell me you got friends (hey girl)
Never thought I meet someone like you but then I did (I did)
Tell me where you been
Baby tell me where you been Where you been You been hiding tell me where you been
I think I seen you outside when I bought the benz I ain't catch a girl tell me that again
Let me buy you drink no I don't want this not to end, night to end, girl
After 1 or 2 I hope you feel the same way that I do
I just wanna leave the club and get you back up to my room I look for you whole my life
Baby where you been (hey girl)
I came here with my home boys
Tell me you got friends (hey girl)
Never thought i met someone like you but then I did (I did)
Tell me where you been
Baby tell me where you been
Where you been
I did look my whole life baby where you been (hey girl)
Promise I hold you down girl through the thick and thin (hey girl) Never thought I meet
someone like you but then I did (I did)
Tell me where you been
Baby tell me where you been
Where you been
Girl you bad know you hear that all the time
You aint gotta asking know is yours if is mine
So keep on dancing for me yeah I love the way you want
If we dont get to the touching no that will be a crime, I ain't lie Girl, after 1 or 2 i hope you feel
the same way that I do (I do)
I just wanna leave the club and get you back up to my room I look for you whole my life
Baby where you been (hey girl)
I came here with my home boys
Tell me you got friends (hey girl)
Never thought i met someone like you but then I did (I did)
Tell me where you been
Baby tell me where you been
Where you been
I did look my whole life baby where you been (hey girl)
Promise I hold you down girl through the thick and thin (hey girl)
Never thought I meet someone like you but then I did (I did)

Tell me where you been
Baby tell me where you been
Where you been What's your name again
Where I know you from
I think I know your friends
Now hold your other one
I been burning lil
Wana hit the blunt
Sipping off the cup
I can give u some
Am I dick or fool
Let me give you some
Been there, wanted you
I know he didn't run
In my mouth
Lick you with my tongue
Don't undermine me
I be going dumb
Polo watch still he don't step on these
You see i'm fresh
Handle carefully
Polo underwear got from bayville
Designer stalls i do that separately
What kind of drink you want That's not my concern
Tell me when you gone
Let me get my turn
Why you running from me
Tell me what you heard
Mouth full of diamonds
I be Slanging birds
I be in the hood
I supply the curve
And i got a match
Somewhere in the birds
Bring him to my spot
Been not say a word
Ripping off your shirt
Make your body jerk
Baby move your body
I won't tell nobody
Dancing like rihanna
Make your body work
I can stand behind you
Take you to the counter
Listen to your heart I look for you whole my life
Baby where you been (hey girl)
I came here with my home boys
Tell me you got friends (hey girl)
Never thought i met someone like you but then I did (I did)

Tell me where you been
Baby tell me where you been
Where you been
I did look my whole life baby where you been (hey girl)
Promise I hold you down girl through the thick and thin (hey girl)
Never thought I meet someone like you but then I did (I did)
Tell me where you been
Baby tell me where you been
Where you been
