

Out of This Town (feat. Cam Meekins)

Hardwell & Vinai

All I know, that's for sure
Is that I don't know at all
Throw your phone on the floor
You only need when I call I'm always throwing down for the whole squad
Never going my back to my old job
Find a new jacket and off to mars
Trying to see the world through different cars
And sweat tears, different years
I knew I was made for this
Tonight I just take a sip
I guess this is what famous is
I've been on my last, I've been down for the count
I've been climbing to the top, I've been all the way down
Just put your hands on my hands, let's get out of this crowd
I wanna dance, wanna dance, my way out of this town
I've been on my last, I've been down for the count
I've been climbing to the top, I've been all the way down
Just put your hands on my hands, let's get out of this crowd
I wanna dance, wanna dance, my way out of this town I've been on one, I've been on two
Hands in the air, when I come true
I've been on one, I've been on two
Hands in the air, when I come true Get your, get your hands up!
Let's go
All I know
That I don't know
If you want me
Girl you don't show
Push upon me
On the dancefloor
You don't love me
Grab my hand tho I've been on my last, I've been down for the count
I've been climbing to the top, I've been all the way down
Just put your hands on my hands, let's get out of this crowd
I wanna dance, wanna dance, my way out of this town
I've been on my last, I've been down for the count
I've been climbing to the top, I've been all the way down
Just put your hands on my hands, let's get out of this crowd
I wanna dance, wanna dance, my way out of this town I've been on one, I've been on two
Hands in the air, when I come true
I've been on one, I've been on two
Hands in the air, when I come true
I've been on one, I've been on two

Hands in the air, when I come true
I've been on one, I've been on two
Hands in the air, when I come true Get your, get your hands up!
Let's go
