

Inside Out

Toosii

[Chorus]

Inside out, you been flippin' my mind lately I've been feelin' inside out

I'm the person?you?call whenever you?feel inside out

It's okay cause baby?yeen' gotta cry now

Go wipe your eyes, baby you mine?now

I'm?ready?to call you?mine now

Everything you?want, no I can buy now

I feel like it's way to late to say goodbye now

I feel like you fucking with my mind now

Won't leave you slimed out

[Verse 1]

You worth the weekends and the weekdays

Say you believe in God, so baby we pray

Go to the club, we be the DJ

Tell em' play our song and we dance all night long

Until the sun come up

Say you've been loved, but I feel like you ain't been loved enough

You ain't been touched in a while

I feel like you ain't been touched enough

And imma touch you right where you want it

Give it to you horny

Imma leave you moaning

Right in the bed

Get you right in yo head

Right in yo head

Forget the lies that he said

I know I said imma thug, but girl I lied and I'm scared

[Chorus]

Inside out, you been flippin' my mind lately I've been feelin' inside out

I'm the person you call whenever you feel inside out

It's okay cause baby yeen' gotta cry now

Go wipe your eyes, baby you mine now

I'm ready to call you mine now

Everything you want, no I can buy now

I feel like it's way to late to say goodbye now

I feel like you fucking with my mind now

Won't leave you slimed out

[Verse 2]

Now that you know your worth

Wondering if you still been hurt

Wondering if you been thinking bout me or if you even lurk

You came with no clothes, I wonder if you need my shirt

And it feel good every time I see you smirk

But I been thinking lately

Can I make you my baby
I, know it sound crazy
I, wanna make you my baby
I, wanna make you my lady
I, wanna give you no reason for you to hate me
Just wondering if you could take me
I'm a lot
But wait but baby I forgot
There's a lot of things I'm insecure about

[Chorus]

Inside out, you been flippin' my mind lately I've been feelin' inside out
I'm the person you call whenever you feel inside out
It's okay cause baby yeen' gotta cry now
Go wipe your eyes, baby you mine now
I'm ready to call you mine now
Everything you want, no I can buy now
I feel like it's way to late to say goodbye now
I feel like you fucking with my mind now
Won't leave you slimed out
