

On My Mind

Diplo & SIDEPIECE

[Chorus]

You stay on my mind
Think about you all the time
Got to get to know you well
If you kiss then I won't tell

You stay on my mind
Think about you all the time
Got to get to know you well
If you kiss then I won't tell

You stay on my mind
Think about you all the time
Got to get to know you well
If you kiss then I won't tell

You stay on my mind
Think about you all the time
Got to get to know you well
If you kiss then I won't tell

You stay on my mind
Think about you all the time
Got to get to know you well
If you kiss then I won't tell

You stay on my mind
Think about you all the time
Got to get to know you well
If you kiss then I won't tell

You stay on my mind
Think about you all the time
Got to get to know you well
If you kiss then I won't tell

You stay on my mind
Think about you all the time
Got to get to know you well
If you kiss then I won't tell

Think about you all the time
If you kiss then I won't tell
Think about you all the time
If you kiss then I won't tell

[Instrumental Break]

On my mind

On my mind

[Chorus]

You stay on my mind
Think about you all the time
Got to get to know you well
If you kiss then I won't tell
You stay on my mind
Think about you all the time
Got to get to know you well
If you kiss then I won't tell
You stay on my mind
Think about you all the time
Got to get to know you well
If you kiss then I won't tell
You stay on my mind
Think about you all the time
Got to get to know you well
If you kiss then I won't tell
You stay on my mind
Think about you all the time
Got to get to know you well
If you kiss then I won't tell
You stay on my mind
Think about you all the time
Got to get to know you well
If you kiss then I won't tell
