

# Front Porch Thing

## Little Big Town

[Chorus]

Good Lord willing and the creek don't rise  
My baby's got a song to sing  
While the crickets and the train whistle harmonize  
Doing that front porch thing  
Clanging out, banging out a feel good tune  
Strumming on my old 6 string  
Sure can kill these country blues  
Doing that front porch thing

[Verse 1]

Work's been slow, money's been tight  
But that's alright, honey, that's alright  
Sometimes you won't, but sometimes you will  
And when she do what she do, it's a doggone thrill

[Chorus]

[Verse 2]

When the moon comes up, we sit down  
And the chains start creaking  
Making swinging sounds  
Fall in love, all over again  
Having so much fun, it ought to be a sin

[Chorus x2]

[Verse 3]

When we're doing that front porch thing  
When we're doing that front porch thing  
Doing that front porch thing
