

Say It Again

AJ Mitchell

I can't hear you my heart's
Beating loud as a drum
Is it hot? I feel like I'm on top of the sun And just let it roll, let it roll
Let it roll off your tongue
Once you say that shit once
Once is never enough How do you turn three words into magic?
I don't understand
So say it a-, say it a-, say it again
Say you love me now
Say it a-, say it a-, say it again
Say you need me now
Over and over come closer
And closer and then
Say it a-, say it again Say you love me now
Say you need me now (Say it a-, say it again)
Over and over come closer
And closer and then
(Say you love me now)
Say it a-, say it again Let 'em talk, let 'em talk
Let 'em say we're too young
They say I don't know nothing
But I know you're the one
So beautiful when you put
You and I are in love, oh
Once you say that shit once
Once is never enough
Is never enough, no So say it a-, say it a-, say it again
Say you love me now
Say it a-, say it a-, say it again
Say you need me now
Over and over come closer
And closer and then
Say it a-, say it again Say you love me now
Say you need me now (Say it a-, say it again)
Over and over come closer
And closer and then
(Say you love me now)
Say it a-, say it again How do you turn three words into magic?
I don't understand (-stand)
How do you turn three words into magic?
Like only you can So say it a-, say it a-, say it again
Say you love me now

Say it a-, say it a-, say it again
Say you need me now
Over and over come closer
And closer and then
Say it a-, say it again Say you love me now (Say it a-, say it again, yeah)
Say you need me now (Say it a-, say it again)
Over and over come closer
And closer and then
(Say you love me now)
Say it a-, say it again (Yeah)
