

# who knew

## Chloe x Halle

[Intro: Chloe x Halle]

Who knew, Who knew, Who knew?

Who knew, Who knew, Who knew?[Verse 1: Chloe Bailey]

Never thought you'd be somebody that I

Would be staying with on a Saturday night

To be honest I don't think you're my type

Yet, here we are together two different kinds[Pre-Chorus: Chloe Bailey]

You would say things

Wouldn't listen, but I listen now

You would call me started falling cause it's different now

You would say things

I will listen, I will listen now

You would call me started falling cause it's different

[Chorus: Halle Bailey]

And we started something by mistake

Who would've thought that I would feel this way?

This way about you

Da, da, da, da, da, da, da, da

This way about you, tell me how would've thought of that

Who knew?[Post-Chorus: Chloe x Halle]

Who knew, Who knew, Who knew?

Who knew, Who knew, Who knew?

Who knew?

Who knew, Who knew, Who knew?

Who knew, Who knew, Who knew?

Who, Who, Who knew?

Who knew, Who knew, Who knew?

Who knew, Who knew, Who knew?

Who knew

I admit it don't see how we could be

But I get light when you're talking to me

In your eyes he [?] of me

Though we're two different trumps we're moving in sync

[Pre-Chorus: Chloe x Halle]

You would say things

Wouldn't listen, but I listen now

You would call me started falling cause it's different now

You would say things

I will listen, I will listen now

You would call me started falling cause it's different[Chorus: Halle Bailey]

And we started something by mistake

Who would've thought that I would feel this way

This way about you  
Da, da, da, da, da, da, da, da  
This way about you tell me how would've thought of that  
Who knew?[Bridge: Halle Bailey]  
I go cause my heart knows  
Way before my mind's in tune  
And I go where my heart goes  
Didn't know it'd lead to you  
I go cause my heart knows  
Way before my mind's in tune  
And I go where my heart goes  
Didn't know it'd lead to you[Outro: Chloe x Halle]  
And we started something by mistake (We started, We started)  
Who would've thought that I would feel this way  
(We started, We started)  
This way about you (We started, We started)  
Da, da, da, da, da, da, da, da  
This way about you tell me how would've thought of that  
(We started, We started, ay)  
Who knew?
