

Little District (Acoustic Version)

Sublime

Oh in a Little District,
In a neighborhood,
People movin' swift,
Like they think they shouldA word from your mouth,
Your lights get knocked out
A blast to your lips,
And later you move and slip
And if you have to don't dripI don't know how they manage
But believe me, mister, they do
If you ever live there,
You just listen and don't be no fool
In a Little District,
In a neighborhood,
People movin' swift,
Like they think they shouldA word from your mouth,
Your lights get knocked out
A blast from your lip,
Later you move and trip
If you have to just slipNo one ask no question,
No one tell no lie
Listen to me people,
This is The reason whyA word from your mouth,
Your lights get knocked out
A blast to your lip,
And later you move and trip
And if you have to just slip
I don't know how they manage
But believe me, mister, they do
If you ever live there
You just listen and don't be no foolIN A LITTLE DISTRICT,
In a neighborhood,
PEOPLE MOVIN' SWIFT
Like they think they shouldA word from your mouth,
Your lights get knocked out
A blast from your lip,
And later you move and trip
