

# Chemicals (feat. MNDR)

Oliver

Oh whoa whoa whoa  
Oh whoa whoa whoa  
Feel those chemicals So, would you take a dive into the shadows?  
Oh, would you draw a line if it got too shallow? If you like, hold tight, don't let it go  
If you like, hold on tight  
If you like, go and take those chemicals  
Don't think twice  
If you like, it's gon' get incredible  
If you like, hold on tight  
If you like, go and take those chemicals  
Don't think twice  
Say it once again, you could be my friend  
So go with me now  
It's giving us a rush, impassible to touch  
Feel those chemicals Oh whoa whoa whoa  
Feel those chemicals  
Whoa whoa whoa whoa  
Feel those chemicals Oh, are you flying higher than the sparrow?  
Oh, are you gonna take me down with a poison arrow? If you like, hold tight, don't let it go  
If you like, hold on tight  
If you like, go and take those chemicals  
Don't think twice  
If you like, it's gon' get incredible  
If you like, hold on tight  
If you like, go and take those chemicals  
Don't think twice  
Say it once again, you could be my friend  
So go with me now  
It's giving us a rush, impassible to touch  
Feel those chemicals Oh whoa whoa whoa  
Feel those chemicals  
Oh whoa whoa whoa  
Feel those chemicals Say it once again, you could be my friend  
Started from the end, you could be my friend  
So go with me now Oh whoa whoa whoa  
Feel those chemicals  
Oh whoa whoa whoa  
Feel those chemicals  
Feel those chemicals  
Feel those chemicals
