

# Vignette

## Shallou

I've been walking for so long  
Just enough for the love I want  
Watching from the sidelines  
Living through signs that is alright

Cause I will flow through the night time  
And I get lost in the daylight  
But I can't follow to meet you  
Far away, where I'm on the other side

You're just you, woah...

[?]

I can feel your heart beating soft now  
Just telling me that I'll be fine  
When you're gone I will never know  
So tell me where the love goes

Cause I will flow through the night time  
And I get lost in the daylight  
But I can't follow to meet you

Far away, where I'm on the other side

You're just you, woah...

[?]

...

Do you...
