

Big Sunglasses

Dragonette

I never got that particular feeling

I'm doing better now than how I've been

Then again I never really ever get anything right

I've got a scab that I can't stop picking

Things that I thought I'd forgotten

Things that I thought got better over night

So what's shaking, a complication

I thought by now I'd be 5'11"

I'd be hanging out with the top banana

Executive access to upper classes

Run and get me some of them big sunglasses

Better gather up what I left for dead

All the pieces needed in a level head

All the information that I've taken down all on my own

So if you think you saw me getting by

I was only lost in another life

And now I'm racing back to where I came from, I got

nothing to show

What's shaking, a complication

I thought by now I'd be 5'11"

I'd be hanging out with the top banana

Executive access to upper classes

Run and get me some of them big sunglasses

I thought by now

I'd be 5'11"

I'd be hanging out

with the top banana

Executive access to upper classes

Run and get me some of them big sunglasses

I've got a little left, I've got a little left in me

I'm not finished yet, I've got a little left in me

I've got a scab that I can't stop picking

Things that I thought I'd forgotten

And now I'm racing back to where I came from, I got

nothing to show

What shaking, a complication

I thought by now I'd be 5'11"

I'd be hanging out with the top banana
Executive access to upper classes
Run and get me some of them big sunglasses

I though by now
I'd be 5'11"
I'd be hanging out
with the top banana
Executive access to upper classes
Run and get me some of them big sunglasses
