

# Love You Too Late

Cole Swindell

[Verse 1]

I wish this whiskey would make her miss me  
Like I wish she did, I wish she did  
Pouring up another one won't change what I should have done  
Before she left, now all that's left is

[Pre-Chorus 1]

Mile by mile and  
City by city she's  
Gettin' over me, and man it ain't pretty, no

[Chorus]

She's out there rolling down some old interstate  
Wide open, wide open  
Couldn't make her stay  
Probably cranking up some new freedom song  
Wide open, wide open  
Won't pick up her phone  
While I'm dying here tonight  
Staring goodbye in the face  
Saying I love you too late  
Too late

[Verse 2]

I can't take back what I never said  
But if I could, man I would  
Try and make her see  
That me and Tennessee want her back  
I wish it worked like that  
Yeah

[Pre-Chorus 2]

If I had half a clue  
Where she was headed now  
I'd do what I had to do  
To make her turn that car around

[Chorus]

She's out there rolling down some old interstate  
Wide open, wide open

Couldn't make her stay  
Probably cranking up some new freedom song  
Wide open, wide open  
Won't pick up her phone  
While I'm dying here tonight  
Staring goodbye in the face  
Saying I love you too late  
Too late

[Bridge]

Yeah, I should've held her close  
I should've let her know  
How I felt about her 'bout a couple county lines ago

[Chorus]

She's out there rolling down some old interstate  
Wide open, wide open  
Couldn't make her stay  
Probably cranking up some new freedom song  
Wide open, wide open  
Won't pick up her phone  
While I'm dying here tonight  
Staring goodbye in the face  
Saying I love you too late  
Too late

[Outro]

Yeah  
I love you too late  
I can't take back what I never said  
But if I could, damn I would
