

Neva Soft

Ms. Dynamite, Amplify Dot, Lady Leshurr & Lioness

Take you away now
Take you away now
We're gonna fight into your heartOriginal bad gal pon the radar
We no fear some boy, we no afraid of
Labrinth Jheeze, hot like potatoAll a hype from the anticipation
Never know 'bout the moves we've been making
The best things come to those who been waiting
So hold on tight
Cause you can't never run from what you see
Take my advice
The spirits don't fly unless they're free
I've been taking it to the world
Oowoah ohhh
Have no fear now
Wooahh ohh
Levitate-tateNo need see me neva soft ya know
No need see me set tings up ya know
No need see me make this rock ya know
But the rhythm never let me down downNone of them can mess with the style no
It's why the all of them follow where I go
Got the beat killer know say it psycho
And we taking ya back like the hi-top
Come again with the fire we can't stop
Take you away now
Take you away now
We're gonna fight into your heartSo hold on tight
Cause you can't never run from what you see
Take my advice
The spirits don't fly unless they're free
I've been taking it to the world
Oowoah ohhh
Have no fear now
Wooahh ohh
Levitate-tateNo need see me neva soft ya know
No need see me set tings up ya know
No need see me make this rock ya know
But the rhythm never let me down downOowoah ohhh
Have no fear now
Wooahh ohh
Levitate-tateFree from it all
Deep in yourself
Now let the rhythm take you there, ohhh

Free from it all
Back off the wall
Now let the rhythm take you there No need see me neva soft ya know
No need see me set tings up ya know
No need see me make this rock ya know
But the rhythm never let me down down Oowoah ohhh
Have no fear now
Wooahh ohh
Levitate-tate
[x2]Take you away now
Take you away now
We're gonna fight into your heart
