

I Owe You

Nick Cannon

Uh this real (its you that i owe)
I owe you (said i owe you) They say the ones you take for granted
You miss the most
Woke up every mornin to grits and toast
School clothes spread
At the foot of the bed
Anything that i needed was there
You get it prepared (yea) (you did it for me)
Held it down when my pops and moms ain't
Repay you in a way
That stocks and bonds caint
Jus think
Its that same little boy that used to break rules
Spill cool-aid on the floor
You was my father and my mother
The mother of my father
Known as my grandmother
I reffer to you as mama
no one calmer or conciderit
As you my dear
Love my parents just as much
But lets get one thing clear
You raised me by choice and you didn't have to (mama)
Showed me where to go when i had to use the bathroom
Nasty that's true classy that's you (mama)
Id give you my last breath if i had to
[chorus:]
When i stop, look back think about my life
You gave me your love weather wrong or right
Ooo i owe you come on I owe you (its you that i owe)
When i was down and out
And all my friends was gone
You stayed by my side never left me alone
Ooo i owe you (its you that i owe) (i owe you) I owe you
(its you that i owe) (yes i do) Bethany, Sharron hack it
Kept me wearing jackets
Started triple phat
Mama kept with the fashions
Everlasting love
Couldent ask enough
Went to school, two jobs just to have for us
Plus no child support, you did it on your own

Independent women you the queen of my throne
 (you did it for me)
 Condos to one bedroom we called home
 Long as you was there i was never alone
 Though we had our ups and downs
 Its all up now
 You used to wear small frowns
 Tear them all up now (How?)
 Did you imagine ma
 That your son would grow up to be this handsome huh?
 No I'm playn I'm sayn you the reason i exist
 And for this mess you deserve pure bliss
 Any wish ill grant it
 Any diss ill slam it
 You my all understand it
 You son Nick Cannon
 [Chorus] Lord, heavenly father
 I praise your soul
 Learned to love you for myself when i was eight years old
 Before then i didn't about your grace and mercy
 I just knew my pops was preaching
 While i played in the nursery
 Then he taught me that you so loved us all
 That you sent your only son to die on a cross
 I once was lost but you keep finding me
 I always fall but you keep reminding me
 Verse john 1: 9 that I'm right you see
 And it'll be just fine you took a liking to me
 Gotta let'em all know
 You can still have fun
 Lord in the reins rove you ride shotgun
 Saved me in that crash
 Blocked bullets when they blast
 That night at the party
 Know they got the homie
 No you got him surely
 And as for me if it wasn't for y'all i don't know where i would be
 When i stop, look back think
 about my life
 You gave me your love weather wrong or right
 Ooo i owe you come on (nobody told you to do it for me yeaaa) I owe you
 When i was down and out
 And all my friends was gone (you loved me)
 You stayed by my side never left me alone
 Ooo i owe you (oh) (your my savior) (i owe you) When i stop, look back think about my life
 You gave me your love weather wrong or right
 Ooo i owe you come on (Said i owe you) i owe you (i owe you)
 When i was down and out (said you've been so good so good to me)
 And all my friends was gone
 You stayed by my side never left me alone

Ooo i owe you i owe you
(Said you've been so good so good to meeeeee) When i stop, look back think about my life
You gave me you love weather wrong or right
Ooo i owe you come on i owe you
When i was down and out
And all my friends was gone (i love you so much)
You stayed by my side never left me alone (i love you so much, i love you so much)
Ooo i owe i owe you
