

# Drivin Thru the Night

## Petit Biscuit

I'm driving, through the night  
Smoking a cigarette, windows down  
I'm feeling, this beat so hard  
Been living fast, I'm electrified  
I'm driving, through the night  
Smoking a cigarette, windows down  
I'm feeling, this beat so hard  
Been living fast, I'm electrified I'm walking, through the town  
City lights, I'm an insomniac  
I'm, surrounded by a hundred sights  
I'm, lockin' on one, oh she blows my mind  
I'm hangin' out behind the club  
Bass vibes elevate my soul  
This blue-eyed girl is getting closer and closer  
She's lit up by the rising sun  
6AM, time to move away, she's  
Holdin' me back, wants us to escape  
She pulled my arm with her cold hands  
We're runnin like there's no time to wait  
We're drivin' through the night  
She kissed my neck and she holds me tight  
I feel her heartbeat getting fast  
I'm lucky now, through the night  
Through the night  
Through the night  
Oh, oh-oh, oh-oh  
Through the night  
Night  
Through the night  
Through the night  
Oh, oh-oh, oh-oh  
Through the night  
Night  
Through the night  
Through the night  
Oh, oh-oh, oh-oh  
Through the night  
Through the night  
So, how do you feel tonight?  
I'm searching for something that makes me feel alive  
Hmm, hmm  
And free

Yeah

You know love isn't the only thing that can make your heart beat  
Freedom has no price, freedom makes life worth living
