

Get Ghost

Mark Ronson, Passion Pit & A\$AP Ferg

Who you gonna call when you feel all pent up inside your head?
Do you wanna know how the story goes or make it up instead?
Now your complicated, scares us to the bone
But no one says you're better off alone I got the ghost, get ghost, is scarin' you the most
I think the ghost, the ghost, is scarin' you the most
I got the ghost
That spirit you harbor in your bones
The likeness that you fear the most, but don't forget you're
Don't forget ghost
Get ghost
Get ghost
Get ghost
Lie there in the middle, makes you feel just a little like lifting off the ground
Feeling that bow and the party's full and you just got to get out
Oh you really in no position, call the other now
Funny how you're callin' on us now I got the ghost, get ghost, is scarin' you the most
I think the ghost, the ghost, is scarin' you the most
I got the ghost
That spirit you harbor in your bones
The likeness that you fear the most, but don't forget you're
Don't forget ghost
Get ghost
Get ghost
Get ghost
When you start getting done it's time to get ghost
Everybody 'round you start doin' the most
Everybody pullin' up with they hands out
Wasn't with me, now they wanna be my friend now
Ay, wanna hold a couple bands now
Bet all the bad girls be callin' you now
Took 'em all they wanna see while you in town
But I'm busy getting ghost, I ain't never around
I get ghost with the big checks
Ghost Phantom when I'm handling my business
Move out the way 'cause I'm driving crazy
All these girls- girls date me
But it really makes me feel good
Yeah, ghost, yeah Get ghost
Get ghost
Get ghost
Get ghost
Get ghost Get ghost

Get ghost
Get ghost
Get ghost
