

All Night

Endeverafter

Come over baby drive me crazy, keep me up all night
I throw the party, you're the only girl who caught my
eye

so lets you and me escape upon tippy toes,
and find a dark secluded place for us t-o go
I'm in the, mood baby won't you take off your cloths?
let's keep this a secret, only you and I have to know!

[Chorus]

I wanna be the only one who gets to come inside
(All Night, All Night)
The only one who gives you somethin' makes you feel
alright.
(All Night, All Night)

Oh pretty baby we just made the wrong decision right
let's put our cloths on, lets get back into the party
life.

It was good for me and by the look on your face,
you had fun, makin' another drunken mistake,
and you say "I've never really done this kind of-a
thing, you've gotta believe me, oh I just had to much
to drink"

[Chorus]

[Solo]

Lets keep this a secret, only you and I have to know!
I wanna be the only one who gets to come inside
(All Night, All Night)
The only one who gives you somethin' makes you feel
alright.

(All Night, All Night)

Oh baby baby won't you let me let me come inside?
(All Night, All Night)

The only one who get's to feel you wrapped around me
Tight

(All Night, All Night)

I wanna be the only one who get's to come inside
(All Night, All Night)
The only one who get's to feel you wrapped around me

Tight
Alright, alright -
