

Anywhere

Mustard & Nick Jonas

[Intro: Nick Jonas]

Yeah, yeah

[Refrain: Nick Jonas]

What's better than the time being?

Dark skies never scare me

Fallin', I'll be right behind ya

It's still me, like the very first time

[Pre-Chorus: Nick Jonas]

Somethin' had to be this hard

Somethin' that I really wanted to see

Somethin' had to be this far

Somethin' that I really wanted to reach

[Chorus: Nick Jonas]

You could be anywhere right now

It ain't hard to see

I'll be your light

If you say the words for me

You could be anywhere right now

It ain't hard to see

I'll be your light

If you say the words for me

[Verse: Nick Jonas]

Because I've loved you, yeah

It's not important any longer to me

What are we even fightin' over? Yeah, yeah

It's not important any longer to me

[Refrain: Nick Jonas]

What's better than the time being?

Dark skies never scare me

Fallin', I'll be right behind ya

It's still me, like the very first time

[Pre-Chorus: Nick Jonas]

Somethin' had to be this hard

Somethin' that, I really wanted to see

Somethin' had to be this far

Somethin' that I really wanted to reach

[Chorus: Nick Jonas]

You could be anywhere right now

It ain't hard to see
I'll be your light
If you say the words for me
You could be anywhere right now
It ain't hard to see
I'll be your light
If you say the words for me

[Bridge: Nick Jonas]
I don't know what to do if you're not right beside me
I had to move, but, baby, you know where to find me

[Chorus: Nick Jonas]
You could be anywhere right now
It ain't hard to see
I'll be your light
If you say the words for me
You could be anywhere right now
It ain't hard to see
I'll be your light
If you say the words for me
You could be anywhere right now
It ain't hard to see
I'll be your light
If you say the words for me
You could be anywhere right now
It ain't hard to see
I'll be your light
If you say the words for me
Anywhere right now
It ain't hard to see
I'll be your light
If you say the words for me
Anywhere right now
It ain't hard to see
I'll be your light
If you say the words for me
Anywhere right now
It ain't hard to see
I'll be your light
If you say the words for me
