

I Remember

Chris Lake

I remember when you would say
That you love me in every way
I remember when you would say
That you love me in every way
I remember when you—
I remember when you—
I remember when you—
I remember when you—
I remember, I remember, I remember, I remember
I remember
I remember when you would say
That you love me in every way
I remember when you would say
That you love me in every way
I remember when you—
I remember when you—
I remember when you—
I remember when you—
I remember, I remember, I remember, I remember
I remember

I remember when—
I remember when—

I remember when you would say
That you love me in every way
You loved me once, you loved me twice
But my boy hasn't been so nice
You used to hold me, you used to feel me
You used to kiss me, you used to touch me
You used to please me, you used to squeeze me
You used to love me, you used to touch me
I remember when you—
I remember when you—
I remember when you—
I remember when you—
I remember, I remember, I remember, I remember
I remember
