

Get Through This

Art of Dying

I've seen better days yeah
So says the mirror
It's hard to find divinity when you're the king of men
If I can get through this
I can get through anything
If I can make it through this
I can get through anything
If I can get through this
I can get through anything
If I can make it through this
I promise you, I promise you
It could be much worse
But the call is close
Tomorrow's my reason for today to let go
If I can get through this
I can get through anything
If I can make it through this
I can get through anything
If I can get through this
I can get through anything
If I can make it through this
I promise you, I promise you
If I can get through this
I can get through that
If you cut me wide open
I can cut you some slack
If you come when I'm leaving
I might never be back
I know it's not easy
just a matter of fact
If I can get through this
I can get through that
If you cut me wide open
I can cut you some slack
If you come when I'm leaving
I might never be back
I know it's not easy
just a matter of fact
If I can get through this
I can get through anything
If I can make it through this
I can get through anything
If I can get through this
I can get through that
If you cut me wide open
(If I can get through this)
I can cut you some slack
If you come when I'm leaving
(If I can get through this)

I might never be back
I know it's not easy
(If I can get through this)
just a matter of fact
