

# Siren (feat. Pia Toscano)

Vicetone

Pre - Release Lyrics (Correct if wrong) Like a wake-up call from the darkest fall, yeah, we  
waste it all

Suddenly I see all that love can be, I can barely breathe

You are my revolution (revolution)

My only one

My life's loves sick solutions (sick solutions) And if you ever doubt it how I feel about you

I was screaming out into the night

Shouted from the rooftops, and I swear I won't stop

'Till you hear this lovely loud the sky Like a siren, oh

Like a siren, oh

(Drop) Over all the noise your the only voice running through my head

Music to my soul, deeper then it goes (I was all controlled)

You are my revolution (revolution)

My only one

My life's loves sick solutions (sick solutions) Before I take it long

All I felt was love

And when my heartbeat drums

I hope you know it's for your love And if you ever doubt it how I feel about you

I was screaming out into the night

Shouted from the rooftops, and I swear I won't stop

'Till you hear this lovely loud the sky Like a siren, oh

Like a siren, oh

(Drop) Like a siren, oh

Like a siren, oh END
