King Von

DJ on the beat so it's a banger
VonMan, it's three in the morning (Uh-huh)
I'm thinkin' 'bout hittin' this lick
I know what y'all thinkin', I'm bogus
I'm supposed to be home with a b----
Nah, see, I pay the rent, yeah, and I got a kid, damn
Plus, his pockets thick, the s--- I'ma take, he won't even miss
Now this s--- a risk 'cause I asked about him and he play with stick
But it is what it is, if that n---- rich then I'm bustin' his s---
Yeah, see, even I flinch, nah, 'cause my finger itch
But here come his whip, but he ain't alone, he came with a b----
See I ain't changin' no plans, it is what it is, I am what I am
And if his b---- got some sense, when I up this Blick his hoe better get down
From the look this b---- Burberry'd down
From the look this b---- bag say Chanel
From backend she a ten on the scale
I think I might just take her as well
Let me stop being' silly, they goin' in the building, I'm goin' in with 'em
God please let him do what I say, if he don't, he gon' be comin' to get me
See, I'm high and a little bit of tipsy
But I'm focused, I'm thirsty, it's in me
Caught him lackin', put the Glock to his kidney
He start shakin' and squirmen' and fidgetin'
Told the b----, "Don't look my way," if she do, her whole face gon' be missin'
And she stay with her face to the wall so I guess that she got the picture
I want the money, it could be so simple
And your jewelry s--- look official
If he play, gun blow like a whistle
Pat him down, look, what? I found his pistol
Looked to the right 'cause I heard a giggle
Turned around and this b---- my sister
"Ayy Kayla, why you dressed like a hooker?
And all the n----- that you f--- with be p-----?"
Damn, look, man, I'm sorry, I'm sorry for ruining' y'all party
But I'm keepin' the money and jewelry
Just walk it off, you would thank me tomorrow
Man, these n----- be b-----, straight ho, flat out, he sissy
Play with King Von, he trippin'
Find out where he stay next week, he missin'
A n---- diss me, he won't do it again
I rob a n---- and do it again
I come through your block and kill two of your friends

It's do or die, is you gon' ride? (Gang)DJ on the beat so it's a banger
