

# Slumber

## NEEDTOBREATHE

[Verse 1]

Days they force you  
Back under those covers  
Lazy mornings they multiply  
Glory's waiting outside your window  
Wake on up from your slumber  
Baby, open up your eyes

[Verse 2]

Tongues are violent  
Personal and focused  
Tough to beat with your steady mind  
Hearts are stronger after broken  
So wake on up from your slumber  
Baby, open up your eyes

[Chorus]

All these victims stand in line for  
The crumbs that fall from the table  
Just enough to get by  
All the while your invitations  
Wake on up from your slumber  
Baby, open up your eyes  
Wake on up from your slumber  
Baby, open up your eyes

[Verse 3]

Take from vandals all you want now  
Please don't trade it in for life  
Replace your feeble with the fable  
Wake on up from your slumber  
Baby, open up your eyes  
Wake on up from your slumber  
Baby, open up your eyes

[Chorus]

All these victims stand in line for  
The crumbs that fall from the table  
Just enough to get by  
All the while your invitation

Wake on up from your slumber  
Baby, open up your eyes  
Wake on up from your slumber  
Baby, open up your eyes

[Bridge]  
C'mon sing like we used to  
Dance when you want to  
Taste of the breakthrough  
And open wide

[Chorus]  
All these victims stand in line for  
The crumbs that fall from the table  
Just enough to get by  
All the while your invitation  
Wake on up from your slumber  
Baby, open up your eyes  
Wake on up from your slumber  
Baby, open up your eyes  
Wake on up from your slumber  
Baby, open up your eyes

[Bridge]  
Sing like we used to  
Dance like you want to  
C'mon darlin' open up your eyes  
Sing like we used to  
Dance like you want to  
C'mon darlin' open up your eyes
