

Kill and Run

Sia

[Verse 1]

Watching the sequence of sounds
Coming out of your mouth
But the snore is too loud
Follow the hands as they move
Try to make out your move
But my brain doesn't want to

[Pre-Chorus]

Hide, oh the door
Silent call for you
What have I done to you?

[Chorus]

Kill and run, kill and run
I'm one of the dirty guns
Kill and run, kill and run
A bullet through your heart

[Verse 2]

Interpret the eyes as they die
Should I cry? Should I love?
Your poor lashes blow
Victim of sensory love
You cry over my voice
An innocent call

[Pre-Chorus]

Hide, oh the door
Silent call for you
What have I done to you?

[Chorus]

Kill and run, kill and run
I'm one of the dirty guns
Kill and run, kill and run
A bullet through your heart
Kill and run, kill and run
I'm one of the dirty guns
Kill and run, kill and run

A bullet through your heart
