

Boom Boom Room

Roddy Ricch

I've been on top for a while (top for a while)
NASA shippin' to the moon
Fast car make vroom, vroom, vroom Take her to the boom boom room I'm a visionary, I got
these niggas scary, hmm
Bought a big Patek with a brand new wrist setting, hmm
Inside the new Maybach coupe peanut butter, jelly, mm
I'ma slide in the Rolls, slide in the Lamb, slide in the Benz Been workin' on my confidence
And respect, I get a lot of it
I don't ever mean to contradict
If it's up then it's up with us Tell 'em pour another cup with us (pour that, pour that)
Even my brother sippin' mud with me
My bitch is a ten, my jet in the wind, I fought just to win
My dawg just caught another body, now he poppin' xannies again
Caught his ass slippin' at the cul-de-sac
Slidin' on the opps, playin' toe tag (tag)
Just in Miami, I was chillin where the Zoes at
In the Rolls Royce, I don't need the LoJack Keep the forty-five I had to hold it (hold it)
Gotta ride with it 'cause I'm chosen
I just pulled up on Lamby-Lamb
Playin' dice with Mustard, bet it on the four-to-ten
I remember wonderin' when I'm gon' eat
Pull up the Bentley with no key I've been on top for a while (top for a while)
NASA shippin' to the moon
Fast car make vroom, vroom, vroom
Take her to the boom boom room
I'm a visionary, I got these niggas scary, hmm
Bought a big Patek with a brand new wrist setting, hmm
Inside the new Maybach coupe peanut butter, jelly, mm
I'ma slide in the Rolls, slide in the Lamb, slide in the Benz
Been workin' on my confidence
And respect, I get a lot of it
I don't ever mean to contradict
If it's up then it's up with us The mud, sippin' on mud
Niggas talkin' shit but they never ever knew us I've been on top for a while (top for a while)
NASA shippin' to the moon
Fast car make vroom, vroom, vroom
Take her to the boom boom room
I'm a visionary, I got these niggas scary, hmm Bought a big Patek with a brand new wrist
setting, hmm
Inside the new Maybach coupe peanut butter, jelly, mm
I'ma slide in the Rolls, slide in the Lamb, slide in the Benz
Been workin' on my confidence And respect, I get a lot of it

I don't ever mean to contradict
If it's up then it's up with us
