

# Back from the Dead

Toosii

Uh, uh, uh-uh

Uh, uh-uh

(SephGotTheWaves)

Back from the dead, lost in the head

(Ayy, yo, Nashi, you go crazy)

Yeah

Back from the dead, lost in the head, I need help

You wasn't pickin' up the phone, now you alone and you need help, yeah

Don't act like you don't know me, but now you know me 'cause you need help, yeah

How it feel to be alone? Is you happy you alone?

You only care about yourself, yeah

Back from the dead, lost in the head, I need help

You wasn't pickin' up the phone, now you alone and you need help, yeah

Don't act like you don't know me, but now you know me 'cause you need help, yeah

How it feel to be alone? Is you happy you alone?

You only care about yourself, yeah

Back from the dead, you still ain't asked me how I felt

And whenever you call me, I go all in and I'm there, yeah

How come you never asked me how many tears I done shed?

You poked me over and over as I bled, yeah

Gave you my heart and you act like you ain't care

But now you love me, and I feel like that ain't fair, yeah

I showed you different, and I feel like that was rare, yeah

If you ain't love me, why the fuck would you be here? Yeah

Still call your phone on the weekend

We used to listen to Weeknd

I think I'm stuck in the deep end

Your heart is shallow, uh

They like, "The fuck was you thinkin'?"

I tried resortin' to drinkin'

I only ended up sinkin'

Lost this battle

Lost this battle (ayy)

Lost this battle

Lost this battle

Hey

Back from the dead, lost in the head, I need help

You wasn't pickin' up the phone, now you alone and you need help, yeah

Don't act like you don't know me, but now you know me 'cause you need help, yeah

How it feel to be alone? Is you happy you alone?

You only care about yourself, yeah

Back from the dead, lost in the head, I need help

You wasn't pickin' up the phone, now you alone and you need help, yeah

Don't act like you don't know me, but now you know me 'cause you need help, yeah  
How it feel to be alone? Is you happy you alone?  
You only care about yourself, yeah
