

Party Up the Street

Miley Cyrus, Swae Lee & Mike WiLL Made-It

[Verse 1: Swae Lee]

I'm sure that you know where I stand
Lead me on, do it while you still can
Party up the street, even though there is no place to park
Party up the street, and you know what happens after dark
You can see our feet from the street
Since the garage was halfway open
Our eyes didn't meet until we started rollin'[Chorus: Miley Cyrus & Swae Lee]
Party up the street, even though there is no place to park
Party up the street, and you know what happens after dark

[Verse 2: Miley Cyrus & Swae Lee]

The way that you movin' your body, I want money
Soon as I put it on you, you wanna guard me
We didn't come this close for nothing
We didn't come this far for nothing[Chorus: Miley Cyrus & Swae Lee]
Party up the street, even though there is no place to park
Party up the street, and you know what happens after dark[Bridge: Miley Cyrus & Swae Lee,
Miley Cyrus]

You can count on me, okay
You and me, we can be okay
We can rock like an ocean wave
(We can rock, we can rock, we can rock, we can rock, babe)
You and me, we can be okay
(You and me, we can be okay)
We can go out with a bang

[Chorus: Miley Cyrus & Swae Lee]

Party up the street
(The way that you movin' your body, I want money)
Party up the street
(The way that you movin' your body, I want money)
Party up the street
(The way that you movin' your body, I want money)
Party up the street
(The way that you movin' your body, I want money)[Outro: Miley Cyrus & Swae Lee]

And you know what happens after dark
(The way that you movin' your body, I want money)
And you know what happens after dark
(The way that you movin' your body, I want money)
And you know what happens after dark
Yeah yeah

And you know what happens after dark
And you know what happens after dark

And you know what happens after dark
