

# Horror Show

## CG5

I'll let you know  
Before you try to go  
Now thi is my own show  
Not a script or flipcould make me stop  
So just behave  
I mean there's no escape  
Let's hope you make that drop  
Because you really don't want to take me off  
And oh What fun  
I will tell you what to do  
And you will get it done  
And oh Don't run  
You'll find your nightmare here  
Has only just begun  
Welcome to my horror show  
Now in stunning 3D  
Oh i bet you thought you'd seen the last of my  
Are you reading the wall's  
Did you get my clues  
There's a debt to repay and for now  
YOU'LL DO  
Only ink  
Is that just what you think?  
Well i won't prove you wrong  
Not a stage or page where i belong  
I'm left to rot  
In this eternal spot  
Just let those noisy gears  
Drill a hole right through your filthy fears  
And oh What fun  
I will tell you what to do  
And you will get it done  
And oh Don't run  
You'll find your nightmare here  
Has only just begun  
Welcome to my horror show  
Now in stunning 3D  
Oh i bet you thought you'd seen the last of my  
Are you reading the wall's  
Did you get my clues

There's a debt to repay and for now  
YOU'LL DO  
So why don't you  
Grab a wrench and work with me  
We'll make it roar, that ink machine  
I'm sure we both want this to end, oh  
Don't you get it, friend?  
You're the human, i'm the monster  
Can't have one without the other  
What do you think that axe is gonna do?  
It'll all be over soon  
But until then...  
Welcome to my horror show  
Now in stunning 3D  
Oh i bet you thought you'd seen the last of my  
Are you reading the wall's  
Did you get my clues  
There's a debt to repay and for now  
YOU'LL DO
