[Verse 1]

Man I never had shit

I never had cake

Used to sell drugs but I never had weight

Livin' life fast like I never had breaks

Speakers on blast like I never had base

I never had friends, keep my enemies close

Roll the windows up if whenever we smoke

My niggas stay high they can never be low

And I lie to my bitch like I never had hoes

Never wish jail or death on a nigga

I never had tears or respect for a teller

I never did a beer till the cops come and get 'em

Even 27 years couldn't stop Mandela  
But I never cooked crack  
Never took slack  
Run away from home and I never looked back  
Broke ass nigga livin' life on the bottom  
I was tryna touch a mil and put my mama in a condo  
Up in Beverly Hills, maybe down south  
Never been a funny nigga why start now  
Dreams of a Bentley with a top drop down  
Tryna take my shit, then it's po-po-pow  
Never been a thug but I'm real acquainted  
And you will never feel how real my pain is  
And all your new shit sound real outdated  
This is real rock bottom for the tears I tasted  
Cause I never had shit nigga

[Hook]

Rock bottom  
Been rock, rock bottom (I never had shit nigga)  
Been rock bottom  
Been rock, rock bottom (Nah, never had shit nigga)  
Been rock bottom  
Been rock, rock bottom (I never had shit nigga)  
Been rock bottom  
Been rock, rock bottom (Cause I never had shit nigga)  
Been rock bottom  
Been rock, rock bottom (I never had shit nigga)  
Been rock bottom  
Been rock, rock bottom (Nah, I never had shit nigga)  
Been rock bottom  
Been rock, rock bottom (I never had)  
Been rock bottom  
Been rock, rock bottom

[Verse 2]

Nah, I ain't never been a rat (rat?)  
Nah, I ain't never have no money put the pennies in the bag  
Cause I never had a stack (stack?)  
Nah, I never been a bitch nigga, never had a pad  
You ain't never have a bag (bag?)  
You ain't never rode a bus, prolly never took a cab, gettin' ride from your dad  
But your momma at work takin' money out her purse tryna pay for some work  
Cause you never wasn't nothin' but a spoiled motherfucker  
Tryna follow where your friends and magnolia motherfuckers  
But you never give respect of a loyal motherfucker  
You just want to be down, wanna live fast  
Run away from home and don't ever look back  
Dreams of a beast livin' life in a city

I'm just tryna touch a mil and put my momma in a mansion  
All the way in Miami, maybe in the hill[s]  
Never had a job but the nigga got bills  
And niggas run they mouth 'till the shit get real  
And the thugs come out with the p-p-pill  
Never been a thug but I'm real acquainted  
You will never feel how real my pain is  
And all your new shit sound real outdated  
This is real rock bottom for the tears I tasted  
Cause I never had shit

[Hook]

Rock bottom

Been rock, rock bottom (I never had shit nigga)  
Been rock bottom  
Been rock, rock bottom (Nah, never had shit nigga)  
Been rock bottom  
Been rock, rock bottom (I never had shit nigga)  
Been rock bottom  
Been rock, rock bottom (Cause I never had shit nigga)  
Been rock bottom  
Been rock, rock bottom (I never had shit nigga)  
Been rock bottom  
Been rock, rock bottom (Nah, I never had shit nigga)  
Been rock bottom  
Been rock, rock bottom (I never had)  
Been rock bottom
