

Little Brother

Ella Vos

[Verse 1]

Can we talk more to one another?
Missin' the days when we were younger
Now all I hear is a distant echo
Turning your back when your eyes look yellow

[Pre-Chorus]

Follow me into the night
I'll be here 'til you're alright

[Chorus]

Stay close, little brother
I know your true colors
When the world don't listen, you can call my name
Stay close, little brother
Stay close

[Verse 2]

You look so calm before the storm
Saw you go down tryna stand up tall
Your heart's too big, that's why you suffer
Can we talk more to one another?

[Pre-Chorus]

Follow me into the night
I'll be here 'til you're alright

[Chorus]

Stay close, little brother
I know your true colors
When the world don't listen, you can call my name
Stay close, little brother
Stay close

[Instrumental Bridge]

[Chorus]

Stay close, little brother
I know your true colors
When the world don't listen, you can call my name

Stay close, little brother
Stay close
