

Starry Eyes

Cigarettes After Sex

Starry eyes

How can I get to you my true little

Starry eyes

What can I say or do for you my little

Starry eyes

Starry eyes forever shall be mine

Starry eyes

What can I say to make you listen

Starry eyes

What can I do for your attention

Starry eyes

Starry eyes forever shall be mine

When I'm alone I hear & feel you

Wish that I could reach right out & touch you

But knowing you're the one to greet me & meet me

Two alone in the dark may it be

Starry eyes

The sparks will fall on me

Starry eyes

Won't you listen that I'm here being

For you starry eyes

Starry eyes forever shall be mine
