

Peace

Alison Wonderland

Someday
SomedayNights are numb, days are dead
Tried to fix you, broke myself instead
I wonder why I can't sleep without you by myWish I, I could find the words to say
Words to say to you
Wish that you could see the other way
SomedaySomeday I'll be better
Now that you gone, I'll burn all your letters
And write all your wrongs
Right now I am barely off of my knees
But someday I'll find peace
Someday, someday, someday I'll find peace
Someday, someday, someday I'll find
What's it like? How's your life?
Did it hurt you when you saw me cry?
I wonder why I still think about you all theWish I, I could find the words to say
Words to say to you
Wish that you could see the other way
SomedaySomeday I'll be better
Now that you gone, I'll burn all your letters
And write all your wrongs
Right now I am barely off of my knees
But someday I'll find peace
Someday, someday, someday I'll find peace
Someday, someday, someday I'll findSomeday
Someday
Someday I'll be better
Now that you gone, I'll burn all your letters
And write all your wrongs
Right now I am barely off of my knees
But someday I'll find (One, two, three) peace
Someday, someday, someday I'll find peace
Someday, someday, someday I'll find
Someday, someday, someday I'll find
Someday, someday, someday I'll find
