I Can See Through You

The Horrors

I got the church key Moving in the night

Don't you wish you could live this lie?I couldn't talk about

Filling up with longing

Pale horse, green eyes'Cause I can see through you and I don't get it

I can see through you and there's no way

I can see through you

I can see throughI can see through you and I don't get it

I can see through you and there's no way

I can see through you

I can see through

La, la, la, la, la

Some people see you

To me you're just see-through

No one remembers your name

No one triesAnd let you step outside

In the fever of evening

No one remembers your name

No one tries'Cause I can see through you and I don't get it

I can see through you and there's no way

I can see through you

I can see through Cause I can see through you and I don't get it

I can see through you and what you are

I can see through you

I can see through

La, la, la, la, la

'Cause I can see through you and I don't get it

I can see through you and there's no way

I can see through you

I can see through Cause I can see through you and I don't get it

I can see through you and there's no way

I can see through you

I can see through

La, la, la, la, la
