

# Stay Downtown

Cole Swindell

[Verse 1]

When I feel my phone buzzing, ain't even gotta look down  
I know it's you that's calling, a couple drinks in by now  
So I say, "Hello," you say, "Hey, babe"  
Say you're 'bout to catch a cab over to my place  
"See you in five," but, baby, this time

[Chorus]

Stay downtown  
Keep moving your heels on the floor  
Let the bartender pour you up another round  
Tip the cover band, find another hand  
To dance and call him your rebound  
Another late night love, another last call crush  
With the neon shining down  
Girl, this time around, stay downtown

[Verse 2]

Ain't gonna lie, if you knock on my door  
I'm gonna let you walk in  
Let you leave drunk lipstick marks like tattoos on my skin  
But you know in the morning  
We're gonna regret everything we did  
So why even start what ain't good for our hearts

[Chorus]

Stay downtown  
Keep moving your heels on the floor  
Let the bartender pour you up another round  
Tip the cover band, find another hand  
To dance and call him your rebound  
Another late night love, another last call crush  
With the neon shining down  
Girl, this time around, stay downtown

[Bridge]

Keep sipping your drink, keep spinning the room  
Keep chasing the night like you always do  
Keep letting the good times play

Don't let me get in your way

[Chorus]

Stay downtown

Keep moving your heels on the floor

Let the bartender pour you up another round

Tip the cover band, find another hand

To dance and call him your rebound

Another late night love, another last call crush

With the neon shining down

Girl, this time around, stay downtown

Stay downtown

Yeah, this time around, baby, stay downtown
