

Wake Me

Bleachers

Right from the start I knew
You'd set a fire in me
And I'd rather be sad with you
Than anywhere away from you
And hey
I can't believe I captured your heart
I can't believe I captured your heart
Stake my life on it
If somebody's gonna quit
Then I'd rather be sad with you
Than with any other girls but you
And hey
I can't believe I captured your heart
I can't believe I captured your heart
If you're lonely, lonely, lonely, wake me
I can't believe I captured your heart
Right from the start I knew
You'd set a fire in me
And I'd rather be sad with you
Than anywhere away from you
And hey
I can't believe I captured your heart
I can't believe I captured your heart
