## Robert Plant

Let's go! Love is in the stars, love's heaven sent  
Brush your lips and mine, taste my good intent Lay it on real close, inside my crazy arms  
Come on feel your Daddy's love, I won't do you no harm  
How you feel inside, you are the enchanter  
Take me on through the night, fantasy in the desert Calm my raging fire, meld my love control  
Quench me with your showers of love, feel my body roll  
How you feel inside, you are the enchanter  
Take me on through the night, fantasy in the desert  
Love will seize the mind, its power at your command  
Prisoner in your arms of love, captive in your hands  
How you feel inside, you are the enchanter  
Take me on through the night, fantasy in the desert Oh Nirvana  
I love you, love you, love you, love you  
How you feel inside, you are the enchanter  
Take me on through the night, fantasy in the desert Oh Nirvana  
I love you, love you, love you, love you Holy Moses, mi amigo  
Mystic biscuit, mind your lingo  
Walk in circles, stand by truth  
Watch out boys, she's after you  
She's after you  
Oh she's gonna get you  
Oh, oh  
Here she comes  
Watch out
