

Superstar

Majid Jordan

I just wanna spend my life with you (With you)
Go around the world and to the moon (With you)
I just wanna share the light with you (With you) Have some kids and move to France with you
(With you)

I just wanna spend my life with you (With you)
Go around the world and to the moon (With you)
I just wanna share the light with you (With you)
Superstar (You, you, you, you, you) Tonight

My eyes, my eyes, don't lie
My heart knows wrong from right
I'm done taking advice
I don't wanna fight, no
I'm so crazy

Thinking 'bout you
None of my friends believe me
None of them know the truth
I love being with you

Superstar

I just wanna spend my life with you (With you)
Go around the world and to the moon (With you)
I just wanna share the light with you (With you)
(You, you, you, you, you), superstar Back it up on me
Now that you're mine

Show me how you really feel inside, tonight
Angel in my life I just wanna spend my life with you (Superstar)
Go around the world and to the moon (Superstar)
I just wanna share the light with you (Superstar)
Have some kids and move to France with you (Superstar)
I just wanna spend my life with you (Superstar)
Go around the world and to the moon (Superstar)
I just wanna share the light with you (With you)
(You, you, you, you, you)

All the time

Everywhere I go, you're on my mind
Only you know how I feel inside
Take a risk when you see the signs
New to this, but you wanna try
Memories of you back at my old place
Running back like a replay
In my head, and it's two days
'Til I see you, I can't wait
You got too much on your plate

You say, "Love me, don't let go"
Wishing it was that simple
Anything if you say so
You get all that you ask for
Superstar
Superstar
Superstar
Thoughts of you playing on my mind
Carry you with me all the time Superstar
I just wanna spend my life with you (Superstar)
Go around the world and to the moon (Superstar)
I just wanna share the light with you (Superstar)
Have some kids and move to France with you (With you)
I just wanna spend my life with you (Superstar)
Go around the world and to the moon (Superstar)
I just wanna share the light with you (Superstar)
(You, you, you, you) It's all for you
It's all for you (Superstar)
