Bloodline

Slayer

Eternal the kiss I breathe Siphon your blood to me Feel my wounds of your god Forever rape mortality I smell of death I reek of hate I will live forever Lost child, pay the dead Bleeding screams of silence In my veins, your eternity I'll kill you and your dreams tonight Begin new life Bleed your death upon me Let your bloodline feed my youth First breath born, come alive, learn to kill Bloodfest awaits to feed your hunger Dark side has no rival, test your faith in blood Night hides the hunting packs, a feeding frenzy I'll kill you and your dreams tonight Begin new life Bleed your death upon me Let your bloodline feed my youth I am the first, not the last Condemned by a single kiss Betrayed eternally, I'll rip inside your soul Contaminating the world Defying God and son Black heart that brings your death Living in infamy Drink the flesh of life itself Prepare to reign a thousand years I'll kill you and your dreams tonight Begin new life Bleed your death upon me Let your bloodline feed my youth Bleed your death upon me Bleed your death upon me Bleed your death upon me Let your bloodline feed my youth
