

Tomorrow

John Legend

[Intro]

With good understanding
And a lot of patience
You can make it, yes you can
Beyond your wildest dreams

[Verse 1]

Here we are in the prime of life
We're so ripe
Yeah the time's right
Here we go and we're high of expectations
Let's not waste them

[Hook]

Oh the sunshine in your eyes could break the ice
I can tell that you deserve the best in life
If I offer you the chance to live tonight
Then take it
We can make it

[Bridge]

Don't wait til tomorrow
Don't wait til tomorrow, let's go
Don't wait til tomorrow
We waited all our lives
Don't waste another day

[Verse 2]

Hesitation will only get you nowhere
Don't just stand there
Every moment is a gift
Here's your moment to live
Don't have no fear

[Hook]

Oh the sunshine in your eyes could break the ice
I can tell that you deserve the best in life
If I offer you the chance to live tonight
Then take it

We can make it

[Outro]

It's our time

It's our evening

Don't let it slip away

Tomorrow's too late

It's our night, please don't leave me

If you're lost I'll help you find your way

Your way to tomorrow

Oh don't you know we're gonna get together

Your way to tomorrow

Don't wait til tomorrow

Oh we're gonna get together
