Closer, Feat Dwele

Detroit Deli: A Taste of Detroit(Dwele,)There's something I wanted to know, can we get closer?

Yeah baby

Seems like I've waited to know, can we get closer?(Elzhi) 1

Yeah... Yeah

Girl you should come up for the week

I'll make you cum from the tub to the sink

Rubbing your feet in a luxury suit

Make sure you come with nothing on just a long shearling

And I'ma make ya toes curl up like there all???

I'll whisper in your ear, tell ya something

Stick my tongue in ya bellybutton

Reach down below, ya know I'm well sprung

Hit ya from the back to get ya calfs trembling

And pull ya hair 'til its straight, you'll look half Indian, laughing, giggling

With champagne bubbles tickle ya nose

Before you I wouldn't throw my old nickles at ho's

I'm just glad we can get close, for breakfast in the morning

We can fly out to Paris France for the French toast

You made me wait so long and that's a good thing

Now let me make ya candy rain dampen your thong

I hit it off like a champion strong, for real

Your still bumpin and grindin even after the song but all along I, I...

REPEAT, (T3) 2Let me talk to ya, feel me for a sec,

I love ya sassy ways I must confess

Ya lookin good girl, I hope you into sex,

Sort of a model type with a splash of innocence

Ya fast charms, ass like ya mums,

I love that Tiffany charm thats hangin from ya arm

And if we get it on I'ma take her back to the fort,

Show her how I run game like an athlete in sport

Sweetie I can see that money ain't a thing

Been doin this for a while no need to explain it,

Ya doing swell girl, ya never doin poorly,

Ya know I'm hopping in whips just look at the jewelry

Plus you need a man in your life,

Yo someone who can hit it right, and plus got the right doe

Plus I'll treat you like a queen,

Yo your place or mine I was thinking we should get closeREPEAT, Chrous(Dwele)Alot of cats have tried it

I like to touch the na na, I
I know u act real shy but, (Know you get down)
Ur not that type we go
Just keep it low and let it go
No need to act up cause, i (Know you get down)
Can we get closer tonite
I'LL make u cry
Touch u inside baby, i (Make you get down)
Hold you very close with or without clothes
Public or closed doors
We will get closer, yea
