

Only You

Little Mix & Cheat Codes

[Chorus: Jade Thirlwall]

Once upon a time we had it all
Somewhere down the line we went and lost it
One brick at a time we watched it fall
I'm broken here tonight and no one else can fix me
Only you, only you
And no one else can fix me
Only you, only you [Verse: Leigh-Anne & Jesy Nelson]
Paris never feels the same
When the streets all call your name
Ooh, so I hide in crowded rooms
And I'll follow right down the river
Where the ocean meets the sky
To you, to you

[Chorus: Jade Thirlwall]

Once upon a time we had it all
Somewhere down the line we went and lost it
One brick at a time we watched it fall
I'm broken here tonight and no one else can fix me
Only you, only you
And no one else can fix me
Only you, only you
