

Sublime

Christina Grimmie

You
You make me wanna fall in love (fall in love)
You (you)
It's all or nothing, I know
Gettin' lost in your blue skies
All my senses come alive
Every second amplified tonight Gonna be sublime
So so sublime
Feel your love all over me
Can't stop thinking we could be sublime
Sublime
Feel
I feel your aura in my veins
Surreal, you're breaking through my chains
Gettin' lost in your blue skies
All my senses come alive
Every second amplified tonight Gonna be sublime
So so sublime
Feel your love all over me
Can't stop thinking we could be sublime
Sublime Getting so high it's celestial
Never come down to terrestrial
When you speak every decibel
It's making me feel so sublime
Vulnerable but invincible
Lucid but so irrational
Spontaneous but intentional
You're making me
Feel so sublime
So so sublime
I feel your love all over me
Can't stop thinking we could be sublime (oh)
Sublime
Oh no
Sublime I feel your love all over me
Can't stop thinking we could be sublime
Oh
Sublime
