

Secrets (feat. Conrad Sewell)

CID

They don't know what they can't see
They can't hold what they can't keep
Me from you, you from me
The more we have, the more I need
I don't know and I don't care
Trouble goes and I'll be there
If it's you, then it's me
The more we have, the more I need
I won't fall from this love
I won't break when it's tough
I will keep all my promises to you
I won't stop 'til we're dead
But I solemnly swear
I will keep all my promises to you
So I will carry all our secrets for you
I will carry all our secrets for you
I will carry all our secrets for you
I will carry all our secrets for you
They don't know what they can't see
They can't hold what they can't keep
Me from you, you from me
The more we have, the more I need
I don't know and I don't care
Trouble goes and I'll be there
If it's you, then it's me
The more we have, the more I need
I won't fall from this love
I won't break when it's tough
I will keep all my promises to you
I won't stop 'til we're dead
But I solemnly swear
I will keep all my promises to you
So I will carry all our secrets for you
I will carry all our secrets for you
I will carry all our secrets for you
I will carry all our secrets for you
I will carry all our, carry all our
I will carry all our secrets for you
So I will carry all our secrets for you
I will carry all our secrets for you
I will carry all our secrets for you

I will carry all our secrets for you
