

Remedy

Surfaces

See me in the morning with a smile on my face
'Cause even though it hurts I'm always falling into place
And my people say their proud because I never stopped my fate
Even though the road got rough they never found me switching lanes

Energy, energy
Got good energy
Let it be, let it be
What's in front of me
All I need, all I need
This is all of me
Melodies, memories
That's the remedy

Mmmmm mmmmm
That's the remedy
Mmmmm mmmmm
That's the remedy
Mmmmm mmmmm
And that's the remedy
Mmmmm mmmmm
That's the remedy

This is what it feels like to fly
This is what it feels like to be alive

Energy, energy
Got good energy
Let it be, let it be
What's in front of me
All I need, all I need
This is all of me
Melodies, memories
That's the remedy

Mmmmm mmmmm
That's the remedy
Mmmmm mmmmm
That's the remedy
Mmmmm mmmmm
And that's the remedy
Mmmmm mmmmm
That's the remedy
