

# Once Upon a Time

Bobby Caldwell

It wasn't long ago  
We had the kind of love you'd only find  
In fairytales  
And not so long ago  
We were content to be the young and starry eyed  
Our lives were simple like a nursery rhyme  
Once upon a time

(Do you remember baby, do you, remember)

Do you remember when  
We took vacations

(Acapulco, In the summertime)

Yes we were carefree then  
Without the pressures of a world that's so unkind  
Before the little things that undermine  
Once upon a time

Before we tried to change each other  
Sometimes lovers can't be friends  
Once upon a time  
We rolled in the covers  
Can we follow that road back again

(Remember)

(Instrumental)

It wasn't long ago  
We vowed our hearts would be  
Forever intertwined  
When making love was all we had in mind  
Once upon a time

(Do you remember baby, do you)  
(Do you remember baby, do you, remember)  
(Remember)

(Remember)

(Instrumental)

(Do you, remember remember) (Fade Out)
